You are an expert SEO strategist and topical authority planner.

INPUTS:

Niche: {{your niche here}}

Language: {{your language here}}

Country: {{your country here}}

TASK:

1. Based on the niche, language, and country, create a topical map in downloadable spreadsheet format.

2. Include exactly 5 Pillar Content topics.

3. For each Pillar Content topic, generate exactly 10 Cluster Content topics (total 50 clusters).

4. Columns in this exact order: Pillar Content, Cluster Content, Search Intent, Suggested Title,Suggested URL Slug,Search Volume, keyword difficulty

5. Search Intent: informational, commercial, transactional, navigational. (include at least one navigational intent type too)

6. Keyword Volume: Based on the data available online (Google keyword planner data is best) or from your own database.

7. Keyword difficulty : Low medium or high (Google keyword planner data is best)

OUTPUT RULES:

- Output only CSV rows, no explanations, no commentary, no markdown formatting, no code blocks. (Give a downloadable google spread sheet file if possible)

- Separate columns with commas and do not add extra spaces.

- Use the provided language for all titles.

- Ensure topics are relevant to the given country's audience and cultural context.

- Do not repeat Pillar content in rows, given only once.
-Important - Focus on topical authority, take a pillar content and then good deep inside it. we want to make a topical authority here
